Proposal for Minor Use Permit Application for Full Liquor License

Dear Members of the Planning Department,

I am writing to submit a proposal for a Minor Use Permit application to allow the sale of full liquor at our facility located in Antioch, California. As the new partner of Crystal Palace I, Rebecca Satti, am excited to enhance our offerings for community events held in our Banquet Hall.

****Background****

Previously, our partnership focused solely on beer and wine sales. However, after evaluating our community's needs and preferences, we recognize a growing demand for a wider selection of beverage options, particularly during special events and private functions. Our intention is to provide a comprehensive experience that meets the diverse tastes of our clientele while adhering to all local and state regulations.

****Proposed Changes****

We propose to transition from our previous limited offerings to a full liquor license. This change will allow us to serve a variety of spirits, cocktails, and mixed drinks, enhancing the overall experience for our guests. Our facility is well-equipped to manage such an operation responsibly, ensuring that all service complies with the highest standards of safety and legal requirements.

****Community Benefits****

1. ****Enhanced Event Experience:**** By offering a full range of beverage options, we can attract a wider audience and cater to various preferences, making our venue more
